

Herbicides for Sedge Control in Home Lawns

by

James A. McAfee, Ph.D.
Extension Turfgrass Specialist
Dallas, Texas

Common Name	Trade Names (partial list)
1. imazaquin	Image Kills Nutsedge
2. halosulfuron-methyl	Gowen Sedgehammer
3. sulfentrazone + quinclorac	Image Kills Crabgrass

Note: Always read the herbicide label before purchasing or before applying any herbicide. Labels do change and it is important to make sure the herbicide is still labeled for use in the type of turfgrass growing in your lawn.

This is not a complete list of sedge control herbicides sold for use in home lawns. It does provide an example of some of the more common herbicides sold in garden/retail stores. The purpose of this list is not to promote a particular product, but to provide some examples.
